EXPERIENCE

UX/UI Design Intern

OneLab, OnePlus NA | New York, NY | July - Dec. 2020

- Led COVID-19 and digital wellbeing related research projects. Tasks included survey design, interview, focus group, data analysis, and insight visualization.
- Built interactive prototypes of Oxygen OS features in digital wellbeing, data privacy, and productivity via Figma and ProtoPie. Iterated design with feedback from surveys and focus groups.
- Designed and built a promotional website for OneLab Studio.

Lab Research Assistant

Cornell University | Ithaca, NY | July - Dec. 2020

- Supported Ph.D. researchers on various sentiment analysis projects. Tasks included literature review, survey design, data cleaning, reasoning, and ML model training.
- Built Figma prototypes of Chrome extensions that analyze the sentiment of translated posts/emails on Facebook and Gmail. Designed a web platform that analyzes the tone of given emails and provides editing suggestions on their politeness.
- Exported style guides, design handoffs, and visual assets to collaborate with the development team and arranged testings.

User Experience Designer

OnePlus | Shenzhen, Guangdong | May 2018 - July 2019

- Directed the interaction design of OnePlus communication center by building wireframes and interactive prototypes of Dialer, Contacts, and Messages using Sketch and ProtoPie. Also in charge of the interaction design of Weather and Zen Mode.
- Organized weekly iterative design conference based on user feedback to support agile problem-solving and prototyping.
- Communicated design requirements and feedback between the visual design team and overseas illustration contractors.
- Evaluated design requirements from NA carrier partners including Verizon, AT&T, and T-Mobile to arrange relative design elements.

User Experience Design Intern

Linksys, Belkin International Inc. | Playa Vista, CA | June - Aug. 2016

- Revised instructions in Linksys routers' Quick Start Guide.
- Redesigned the taskflow and user interface of Linksys Smart Wi-Fi browser-based setup and created responsive interfaces.
- Compressed the setup procedure by 57% and achieved 100% setup successful rate in last four successive usability tests.

EDUCATION

Cornell University

Ithaca, NY | Aug. 2019 - Dec. 2020

Master of Professional Studies in Information Science
Specialized in User Experience

University of Washington

Seattle, WA | Sept. 2012 - June 2017

Bachelor of Science in Human Centered Design & Engineering
Specialized in HCI

HONOR & CERTIFICATE

IBM Applied AI Professional

IBM | Coursera Online Certificate | 2020

Graphic Design Specialization

CalArts | Coursera Online Certificate | 2020

Rookie of the Year

OnePlus | Shenzhen, Guangdong | 2019

Awarded by OnePlus and OnePlus Design Division for being one of the best new employees of the year 2019.

SKILL SET

Research & Design

Preliminary Research / Journey map / Persona & Scenario / Wireframe / Interactive prototyping / Usability test

Development & Data Science

Java / Python / SQL / HTML / CSS / JavaScript / Data visualization

Software

Sketch / Figma / ProtoPie / Axure RP / Flinto / Adobe AI & XD & iD / Tableau
